Installation of the Atlantech Application

For integrating your services with Atlantech, it is necessary to install the Application from the Zoom App Marketplace. The following steps will outline the installation process:

- Navigate to the **Zoom App Marketplace** homepage.
- Use the "Search for Published App" feature in the top right corner and enter "Atlantech" in the search bar.

ZOOM App Marketplace		Q Atlantech
Categories Analytics Broadcasting & Streaming	Discover apps Explore 2,784 apps in Zoom App Marketplace.	

• From the app page, enable the "Approve use of this app" toggle switch.

- Select either "All users" or specific users for approval.
- Click "Add" to complete the installation.

Step 2: Account Verification

When you log into Atlantech you will land on the Dashboard page, select Integrations under settings on the left-hand side.

• Atlantech will now refresh and an *Authorization Code will* auto populate below the green *Verified* badge.

• Your account is now active and ordering or uploading numbers along with provisioning is accessible for the Zoom product.

Removing Atlantech Application Access

In the event that you or your organization no longer wishes to manage Zoom Phone with the portal there are a few steps required before you can remove the app from Zoom.

- 1. Contact the support department letting them know you want to remove access to your Zoom Account.
- 2. Schedule your Port for any numbers you need to keep ownership of.
 - a. **NOTE:** Porting requires multiple documents and has strict timelines that will need to be met prior to disassociating the app.
- 3. Unassign any phone numbers assigned to users, call queues, auto receptionist, etc..
 - a. **NOTE:** You may need to wait until the day of your port to avoid any downtime.
- 4. Once all numbers have been unassigned and you have ported out, navigate to the Zoom Marketplace and select *Manage* in the top right.
