

All-in-one provisioning

# Operator Connect for Microsoft Teams

Simply and quickly enable PSTN calling for Microsoft Teams

## Leverage existing operator contracts:

Keep your preferred operator and contracts, while enabling a modern calling experience in Teams.

## Simple and quick to deploy:

Using iPILLOT, it takes minutes to connect your voice network and assign phone numbers to users – all from the Teams Admin Center. You do not need to be an expert in voice to deploy calling to Teams.

## SBC-managed infrastructure:

PSTN calling services and Session Border Controllers (SBCs) are managed and housed by NUWAVE, saving on hardware purchase and management.

## Enhanced support and reliability:

NUWAVE provides tech support and shared service level agreements to improve support service, while direct peering powered by Azure creates a 1:1 network connection for enhanced reliability

## Communications Provisioning in Minutes, not months

 **Unified:** One pane of glass

 **Simplified:** One workflow

 **Fast:** In minutes, not months

## Simplified Global Voice Provisioning

iPILOT by NUWAVE offers a single pane-of-glass and a single workflow to efficiently manage the entire lifecycle of your company's entire global cloud voice network and collaboration platform.

### Imagine a world

Where you can connect your entire complex communication network infrastructure, without coding, into a single intuitive user interface that offers:

Intuitive stepwise management	On-demand communications survivability	Secure SSO through Active Directory
On-demand capacity scaling	Bring your own carrier options	End-to-end MACD

**This is iPILOT**

# Centralized Global Communications

**connect**  
connecting the digital world

**automate**  
automating provisioning execution

**orchestrate**  
unifying the onboarding workflow

**control**  
centralizing global control

By connecting, automating, and orchestrating your global onboarding, provisioning, and management, you can do in minutes what previously took months and with significantly less cost and resources.

## Unified

iPILOT™ offers a single pane of glass view and control of your entire global communications infrastructure.

## Simple

iPILOT™ simplifies the onboarding & tenant provisioning process into a single workflow that can be managed by non-technical personnel.

## Fast

iPILOT™ reduces the time to market for Direct Routing customers to minutes, not months.
